

A man in a white shirt is seen from behind, looking at a large wall of security camera feeds. The feeds show various scenes: a parking lot, a store interior, a street, a warehouse, and a construction site. The overall color scheme is blue and white.

Monitors

Retailers everywhere are adopting American Dynamics LCD monitors. Our sleek new PVMs blend in beautifully where visual appeal matters most: on the sales floor. But even more impressive are the results they produce. Install them and watch as employee fraud and error drop dramatically - the kind of losses that are impossible to detect without this technology.

LCD Monitors

We provide a comprehensive range of monitors. Our screen resolution and crystal clear imaging make surveillance easier to perform and more accurate. Whether you require single or multiple inputs, a shallow profile or heavy duty metal cabinet, American Dynamics can deliver the right monitor for the job. Every monitor we offer complies with universal mounting standards so you can install our products wherever you need them.

General Purpose LCD Monitors

Minimize your spatial requirements and get brighter, better pictures with our flat panel LCD Monitors. At less than 2-inches thick, these monitors are so light they can be mounted on a wall, ceiling, or equipment rack. Featuring easy to use on-screen menus, the LCD monitors automatically configure and calibrate screen resolution and can be manually adjusted as well. Choose from a wide variety of video display sizes and mounting options, to get the best solution for your application.

Public View Monitors (PVM)

Some of our monitors are designed specifically for public view applications, and feature a white or black case, tempered shatter-resistant glass screen, integrated camera module, and remote control for the convenient adjustment of display settings. PVM models also include a 12 volt power outlet that lets customers plug in a second camera directly for ease of installation.

MONITOR COMPARISON TABLE						
	Type	Screen Size	Resolution	Video Interface	VESA Mounting	Monitor Model
	Multiple Input LCD	17 in	1280 x 1024	VGA, 2 looping Composite (BNC), S-Video	75 mm & 100 mm	ADMNM17LCDP
	Multiple Input LCD	19 in	1280 x 1024	VGA, 2 looping Composite (BNC), S-Video	75 mm & 100 mm	ADMNM19LCDP
	Multiple Input LCD	20 in	1600 x 1200	VGA, DVI, Composite (RCA), S-Video, Component	100 mm	ADDELL2007
	Multiple Input LCD	24 in	1920 x 1200	HDMI, DisplayPort, VGA, DVI, Composite (RCA), S-Video, Component	100 mm	ADDELL2410
	Multiple Input LCD	20 in	800 x 600	VGA, 2 looping Composite (BNC), looping S-Video	100 mm	ADMNLCD20RK
	Public View LCD	20 in	800 x 600	VGA, 2 looping Composite (BNC), looping S-Video	100 mm	ADMNLCD20 ADMNLCD20W
	Public View LCD with Integrated Auto-Iris Camera	20 in	800 x 600	VGA, 2 looping Composite (BNC), looping S-Video	100 mm	ADMCA1LCD20B ADMCA1LCD20W
