

Intellex version 3.0.15 Software Upgrade

This software upgrade installs software version 3.0.15.

NOTE: This update can only be installed on Intellex units with version 3.0.11 software. Do not attempt to install this update on any other version of Intellex or damage to your system may result. To find out what version of software you have, click **Utility**, then click **About Intellex**. The version will be displayed on the screen. If the version is 3.0.11, then you can install this update.

To perform the update, you must have a CD drive on your Intellex unit.

Licensing

This software is protected with a License Key. The license key that enabled the software version 3.0.11 will also enable this update. Do not uninstall the previous version of software or delete any files before performing this installation.

Download Instructions

Using a standard PC with Internet access, go to www.AmericanDynamics.net. Click **Software Downloads** and look under the headings **Intellex Digital Video Management Solution** and **Updates**. Click **Intellex v3.0.15 Update** to go to the Intellex version 3.0 information screen. Click **Download Intellex v3.0.15 Update** to start the download. On the File Download screen, select **Save** to save the file to your hard drive.

After you have downloaded the software update, copy it onto a CD for installation onto the Intellex unit.

Installation Instructions on the Intellex Unit

1. Exit Intellex to the Windows desktop by clicking **Utility, Exit**. Enter the Exit PIN number when prompted.
2. Insert the CD containing the Intellex v3.0.15 Update into the CD drive.
3. Double-click the **My Computer** icon on the desktop.
4. Double-click the **Compact Disc** icon.

5. Double-click **Intellex v3.0.15.exe** to start the installation. Click the appropriate button when prompted during the installation process.
6. When the installation is complete, the Intellex unit will reboot and the software update will be installed. This can be verified by clicking **Utility, About Intellex** to display the software version.
